## **BIPL AT A GLANCE**

It is indeed a great pleasure to introduce ourselves as one of the leading and fast growing solutions provider in any discipline of engineering, including latest information technology.

Bhise Infoelec Pvt. Ltd.; widely known as BIPL, was formed in September 2000. About 40 years ago started as a proprietorship firm under the banner of M/s Bhise & Bhise whose main business being electrical contracting. We have now widened our business in every field of engineering like Electrical Engineering, Mechanical and Instrumentation Engineering, Construction Technology, Information Technology, Fabrication, Architecture and Interiors. We have now evolved as a turnkey projects solution providers. Services that we offer are reckoned for reliability, timely execution and compliance with prevailing industry standards. We render these services in accordance with clients' requirements.

At “M/s Bhise Infoelec Pvt. Ltd.”, QUALITY is the heart of the business. Whether sales or service, or sometimes even merely co-operation, we do it wholeheartedly and give quality services to our clients. BIPL always remains a preferred source of and assurance for quality.

Quality products and services at a reasonable rate backed by timely after sales service is the heart of our every deal. Sticking up to the bar charts is the soul of our work execution.

As a proactive member BIPL has partnered with industry leaders like M/s Areva Ltd., Crompton Greaves Ltd., Siemens India Ltd., Elpro International, Cisco Systems, IBM, Compaq, Acer, Microsoft, APC, Intel, AMD, etc. This helps us to provide quality goods and service to our clients globally.

It is always guaranteed, when one who comes to BIPL, gets the best genre of services. BIPL services suite complete solutions to the clients that cater to a wide range. It thus becomes ONE-STOP-SHOP for all your needs. Our interesting service portfolio attends to the various areas of industries. Profile enclosed herewith.

We look forward to an opportunity of hearing from you wherein we could meet after fixing an appointment to offer ideal solution for your various needs/problems, whether it's for designing and installing new system or for carrying out any alteration in the existing system.
